PROFESSIONAL SUMMARY

Recent Computer Programming graduate with hands-on experience building full-stack web and mobile applications using React, Spring Boot, and Swift. Skilled in deploying scalable solutions with Docker, Kubernetes, and CI/CD pipelines. Strong foundation in machine learning and deep learning using Python. Adept communicator with experience tutoring students, supporting users, and thriving in Agile teams.

PROFESSIONAL EXPERIENCE

Data Analyst Intern | Ededge | May 2025 – Present
- Working on data cleaning, analysis, and visualization using Python, SQL, Tableau, and Excel.
- Apply statistical methods and machine learning to generate insights and support decisions.
- Use Pandas, NumPy, Matplotlib, Scikit-learn, Looker Studio in industry project.

Volunteer Web Developer | LabReNew | May 2025 – Present
- Update and maintain the LabReNew website using Webflow.
- Ensure functionality and responsiveness across various screen sizes and devices.

Mobihelp Tutor | George Brown College | Sep 2024 – April2025
- Tutored students in Java, Python, and front-end development.
- Helped debug code and explain OOP, APIs, and test-driven development.

Customer Service Representative | George Brown College | August 2023 – April2025
- Resolved 50+ daily customer inquiries using strong communication and technical support skills.
- Identified and documented recurring issues, working with teams to streamline solutions.

Software Developer | DAY Insurance | Jan 2020 – Dec 2021
- Built secure web and mobile applications for insurance claims using RESTful APIs and SQL.
- Integrated third-party APIs and ensured compliance with data privacy standards.
- Collaborated in Agile sprints and used Git for version control.

TECHNICAL PROJECTS

Workforce Management System (Capstone Project)
George Brown College • Mar 2025

- Developed microservices using Spring Boot, React.js, Docker, and PostgreSQL.
- Designed role-based access control, scheduling, and approval workflows.
- Deployed with Docker Compose and integrated services via REST APIs.

Grocery Shopping App (iOS)
Mar 2025
- Built a SwiftUI app with Core Data to manage grocery browsing, cart, and orders.
- Implemented featured products, category filtering, splash screen, and local data persistence.

EDUCATION

George Brown College – Toronto, ON
Advanced Diploma in Computer Programming and Analysis • *2022 – 2025*
GPA: 3.7 / 4.0

Azad University
Bachelor of Engineering

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, Swift, C#
Web/Frontend: React.js, HTML, CSS, jQuery
Back-End/Frameworks: Spring Boot, Express.js, Node.js, .NET (basic)
Mobile: SwiftUI, Android (Java/Kotlin)
AI/ML: Scikit-learn, TensorFlow, PyTorch, CNNs, RNNs
Databases: PostgreSQL, MySQL, MongoDB
Cloud & DevOps: Azure, AWS, Docker, Kubernetes, Jenkins, GitHub Actions
Tools & Concepts: REST APIs, GraphQL, WebSocket, Microservices, OOP, Agile, Git

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900) – Microsoft Press

- Microsoft Azure AI Essentials: Workloads and Machine Learning on Azure – LinkedIn Learning

- Programming Foundations: Fundamentals – LinkedIn Learning

- Learning Docker – LinkedIn Learning

- Practical GitHub Actions – LinkedIn Learning
